

Circular No. 018/2021

Date : March 01, 2021

Dear Members,

As all our members are aware Bombay Metal Exchange Ltd has collaborated with TCR Engineering Services an ISO 17025 and NABL accredited independent Material Testing and Quality Assurance Laboratory and have started a Sample Collection Centre for Material, Metallurgical and Corrosion Testing with NABL, ISO 17025, IBR, BIS accreditation at BME House, Room No.18, 2nd Floor, Gulalwadi, Mumbai - 400 004.

BME is glad to inform you that considering the fair response received from our members **TCR Engineering Services are now offering special discounted prices exclusively for BME Members only.** We are sending herewith the price catalogue for your reference.

BME has always been striving to provide the best services to our members and hence are glad to provide the best metallurgical testing services and appeal all our members to avail this facility. On submission of the samples for testing, the reports would be provided on email on 2nd day and hardcopy within 3 working days.
